LISBON MARRIOTT HOTEL

HONORARY CHAIRMEN

Prof. Márcio Castro Silva

Prof. Giorgio Biasi

PROGRAMA PRELIMINAR ▪ PRELIMINARY PROGRAM

14.00 | 14.25 **Abertura • Opening Session**

Presidência por Sua Exc.^a o Ministro da Saúde

SESSÃO 1 • SESSION 1

CRITICAL LIMB ISCHEMIA – CHALLENGES AND RESULTS

PRESIDENTES ▪ CHAIRMEN:

Isabel Cássio and R. Roncon de Albuquerque

MODERADORES ▪ MODERATORS:

Ivone Silva, Silva Nunes

14.30 | 14.40 **The economy of saving limbs and reducing amputations - Why we need to face this challenge in Europe.**
Marion Kerr

14.45 | 14.55 **Present Challenges in CLI - Are Clinical Outcomes Improved?**
J. Fernandes e Fernandes

15.00 | 15.10 **Critical Limb Ischaemia: open or endovascular approach?**
Nicos Angelides

15.15 | 15.25 **When is open revascularization imperative?**
D. Cunha e Sá

15.30 | 15.40 **Endovascular approach to CLI - what can be done.**
Ruy Fernandes e Fernandes

15.45 | 15.55 **No option for revascularization in CLI - Is major amputation avoidable?**
Pereira Albino

16.00 | 16.10 **Drug-eluting stents and balloons: are they really a step forward?**
Ana Evangelista

16.15 | 16.25 **Angiogenesis: unfulfilled promise or a challenging area?**
A. Ministro

16.30 | 16.45 **COFFEE BREAK AND VISIT THE TECHNICAL EXHIBITION**

SESSÃO 2 • SESSION 2

POLICY CHALLENGES FOR HEALTH SERVICES - TO REDUCE AMPUTATION RATES SHOULD BE A PRIORITY

PRESIDENTES ▪ CHAIRMEN:

José Teixeira and Amílcar Mesquita

MODERADORES ▪ MODERATORS:

Nuno Meireles, Gabriel Anacleto, Rui Machado

- 16.50|17.00 Salvaging limbs in patients with renal failure - are we improving our results?
F. Spinelli
- 17.05|17.15 Innovations and new perspectives - Do we reduce costs and improve outcomes?
Pascale Brasseur
17. 20|17.30 A Policy for quality assessment - a priority for any Health Service
Paulo Sousa
- 17.35|17.45 Multidisciplinary diabetic foot interventions show how organization can improve outcomes
Joana Martins
- 17.50|18.00 Integrated care between Health Centres and Vascular Units - the key for success
Pereira Albino
- 18.05|18.15 Organization of care for CLI - do we need a national plan?
Ivone Silva e J. Fernandes e Fernandes
- 18.20|18.40 **INVITED LECTURE**
PRESIDENTES ▪ CHAIRMEN:
Armando Mansilha and António Assunção
- Changing concept on the chronic lymphedema; it is no longer lymphatic disease!
B. B. Lee
- 19.45 **COACHES LEAVE FOR DINNER**

SESSÃO 3 • SESSION 3

CEREBROVASCULAR DISEASE

PRESIDENTES ▪ CHAIRMEN:

L. Mota Capitão and José França

MODERADORES ▪ MODERATORS:

Teresa Vieira, Celso Carrilho, Manuel Fonseca

- 09.00|09.10 Does early carotid endarterectomy after TIA/Stroke increases neurological risk?
L. Mendes Pedro
- 09.15|09.25 Carotid Dissection and Stroke: diagnosis and management.
P. Batista, J. Fernandes e Fernandes
- 09.30|09.40 Transcranial Doppler during carotid endarterectomy: is it really useful?
Luís Silvestre
- 09.45|09.55 Carotid Artery Aneurysms.
Lazar Davidovic
- 10.00|10.10 Treatment of carotid restenosis: conventional repair as first option.
Carlos Martins
- 10.15|10.25 Treatment of carotid restenosis: stenting as first option.
Ruy Fernandes e Fernandes
- 10.30|10.40 CEA in high risk patients.
G. Marcucci
- 10.45|11.05 COFFEE BREAK AND VISIT TECHNICAL EXHIBITION

SESSÃO 4 • SESSION 4

MISCELLANEOUS

PRESIDENTES ▪ CHAIRMEN:

A. Albuquerque de Matos and José Daniel Menezes

MODERADORES ▪ MODERATORS:

Angélica Damião, Leonor Vasconcelos, Pedro Brandão

- 11.05|11.15 New developments on prevention and treatment of venous thromboembolism.
A. Mansilha
- 11.20|11.30 Endoluminal Recanalization on Deep Venous Thrombosis - different story from open surgery?
A. Jaween
- 11.35|11.45 How medical treatment can improve management of chronic venous insufficiency.
A. Mansilha
11. 50|12.00 Is renal revascularization becoming redundant? Present Status.
George Hamilton
- 12.05|12.15 Not all Takayasu's Arteritis would need a surgical intervention: Changing Concept.
B. B. Lee
- 12.20|12.30 Arterial reconstruction in children and young adults.
George Hamilton
- 12.35|12.45 Technical alternatives for arterial and venous mesenteric thrombosis.
Nuno V. Dias

SESSÃO 5 • SESSION 5

CHALLENGING CLINICAL CASES

PRESIDENTES ▪ CHAIRMEN:

Maria José Ferreira and Pereira Albino

MODERADORES ▪ MODERATORS:

Sérgio Sampaio, Daniel Brandão, João Silva e Castro

- 12.45|13.15 3' PRESENTATIONS + 2' DISCUSSION FOR EACH CASE
- 13.20|14.30 WORKING LUNCH

SESSÃO 6 • SESSION 6

AORTIC ANEURYSMAL DISEASE - CHALLENGES AND OUTCOMES

PRESIDENTES ▪ CHAIRMEN:

Duarte Medeiros and Mário Macedo

MODERADORES ▪ MODERATORS:

Alexandra Canedo, Gonçalo Sobrinho

- 14.30 | 14.40 **Coronary and Aneurysmal Disease - Preliminary report of a prospective study.**
João de Castro
- 14.45 | 14.55 **Screening and management of AAA in Poland.**
A. Jaween
- 15.00 | 15.10 **Graft thrombosis following EVAR.**
F. Bastos Gonçalves
- 15.15 | 15.25 **Late ruptures after EVAR. Can its incidence be reduced and what to do?**
Christos Lioupis
- 15.25 | 15.35 **AAA repair in octogenarians - an increased burden.**
Gonçalo Cabral
- 15.40 | 15.50 **AAA repair and renal disease - how to manage.**
L. Mendes Pedro
- 15.55 | 16.05 **Do fenestrated or branched grafts have a role in chronic dissection?**
Thanos Katsargyris
- 16.10 | 16.20 **Tips and tricks to optimize open repair for toraco-abdominal aneurysms.**
Roberto Chiesa
- 16.25 | 16.35 **Branched and fenestrated endoprosthesis for TAA repair**
Nuno V. Dias
- 16.40 | 16.55 **COFFEE BREAK AND VISIT TECHNICAL EXHIBITION**

SESSÃO 7 • SESSION 7

AORTIC ANEURYSMS AND DISSECTION

PRESIDENTES ▪ CHAIRMEN:

João Cravino and João Castro

MODERADORES ▪ MODERATORS:

Ana Garcia, Sérgio Silva

- 16.55 | 17.05 Unusual aortic and iliac aneurysms treated by EVAR - Late results.
Rui Machado
- 17.10 | 17.20 12 years of endovascular treatment of aortic aneurysms: what have we learned? A single centre experience.
L. Mendes Pedro
- 17.25 | 17.35 Emergency management of aortic aneurysms: how branched and fenestrated endoprosthesis changed management.
Nuno V. Dias
- 17.40 | 17.50 To exclude or not the hypogastric - repair with IBD's
Ruy Fernandes e Fernandes
- 17.55 | 18.05 Long-term outcomes following open repair for type A aortic dissection.
Ângelo Nobre
- 18.10 | 18.20 Aortic Arch Aneurysms - How I treat them today?
Roberto Chiesa
- 18.25 | 18.35 Early and late results of TEVAR for descending aorta atherosclerotic aneurysms. Is open surgery still required?
Christos Lioupis
- 18.40 | 18.50 Hybrid repair for challenging aortic aneurysms.
C. Vaquero Puerta
- 18.55 | 19.05 Acute and chronic aortic dissection revisited - are indications and management changing?
Roberto Chiesa

19.20|19.45

FINAL SESSION

CHAIRMEN: *J. Fernandes e Fernandes and Rui Machado*

MODERATORS: *Ana Gonçalves, Ricardo Vale Pereira, Arlindo Matos*

Bringing innovation into health care - how to do it and can health systems afford it?

Adalberto Campos Fernandes

Burning Clinical Cases, Unanswered Questions and Discussion

19.45
